FRANCE AWARDS POSTER TO CITY

MRS. NANNO WOODS RECEIVES GIFT FOR WORK IN BEHALF OF FATHERLESS ONES

LETTER OF THANKS

PRESENT TO BE FRAMED AND PRESENTED TO LIBRARY TO DISPLAY FOR PUBLIC

Mrs. Nanno Woods is in receipt of the following letter from the chairman of the Los Angeles branch of the Fatherless Children of France:

"My Dear Mrs. Woods:—Under separate cover we are sending you a poster which has been sent to us by the French government. One of these posters is to be sent each of our committees as a mark of the deep appreciation of the French government for aid rendered the fatherless children of their country. We are sending this poster to you, and, as suggested to our other representatives, it would be advisable to place the poster on display in some public place in Glendale so that residents of your section may know of this expression of appreciation of their kindness. We believe final disposition of the poster should be either in the public library or with the schools. Placing ourselves entirely at your disposal, and thanking you most heartily for your kind collaboration, believe me,

"Yours very sincerely,
"MRS. L. N. BRUNSWIG,
"Chairman."

To Be Placed in Library

Richardson White, supervisor of Glendale schools, suggests that the poster be placed in the public library, as being the most central public building in Glendale.

James H. Woods, husband of Mrs. Nanno Woods, is having the beautifully engraved poster suitably framed, and as soon as ready the poster will be placed in the hands of the trustees of the public library.

Some fourteen French orphans have been supported for the past two years by the school children of Glendale. Private individuals, too, have generously and unostentatiously done their bit. To all Glendale friends, the committee of the Fatherless Children of France send their deepest thanks and gratitude.

CLASS IS HOST

PHILATHEA MEMBERS ENTERTAIN BARACAS AT MISS EMERY'S RESIDENCE

The Philathea class of the First Methodist church entertained members of the Baraca class at the home of Miss Waunita Emery, 329 North Kenwood street. About forty-five were present. Poinsettias and greenery decorated the rooms.

The program was in charge of Miss Lois Murphy. The evening was spent in games. Miss Beatrice Lanning won a hand-painted plate as first prize at bunco. The gentlemen's prize was won by Elwin Ingledue, and consisted of a leather memorandum book. The refreshment committee of which Misses Margaret Lusby, Dorothy Hamilton and Waunita Emery were members, served pie a la mode, doughnuts and coffee.

Miss Waunita Emery was assisted during the evening by her mother, Mrs. E. U. Emery, and sisters, Josephine and Olive Bell.

NEW CALENDAR

ATTRACTIVE ONE GIVEN OUT BY H. L. MILLER COMPANY; SUPPLY EXHAUSTED

In tribute to their long, long trail" of satisfied customers, the H. L. Miller Realty company, of 109 South Brand boulevard, has sent to its friends a large wall calendar for 1921, embellished with a beautiful reproduction of Warde Traver's painting, "There's a Long, Long Trail A-Winding."

The picture is seventeen by twenty-five inches and it portrays two lovely ladies sitting in the glow of the setting sun watching the full moon rise, its long trail of light falling across the winding stream which they are facing. The colorings of the painting are carried out faithfully in the reproduction, and so quickly did the calendar find favor with all beholders that already the supply is exhausted and the H. L. Miller company call themselves lucky to be able to keep one for their own office.

Further Evidence That Advertising in Evening News Is Dividend Payer

The Messrs. Sebastian, owners of the Sebastian groceries at 145 North Glendale and 1127 North Central avenues, are among the many merchants of this city who can testify to the efficacy of the advertising columns of the Evening News as a business-getter.

On last Tuesday the Sebastian firm inserted a large advertisement in this paper announcing a special sale for Wednesday, with the result that on the latter date both stores were almost swamped with orders.

This was the first mid-week special sale day that the stores had had, so that an unusually good opportunity was offered to test the business-drawing merits of Evening News advertising.

There is a lesson in this for the merchant who has never really advertised, but who is so blind to his opportunities that he excuses himself with the plea that "advertising doesn't pay."

Outside of this office no one has ever been solicited to subscribe for this paper, and consequently those who take it do so because they want it. The subscribers are a class of people who can afford to pay for it, and pay for it in advance, too.

About 1,600 of the leading families in Glendale take the Evening News, which means that it has at least 8,000 readers in the town, and this list is rapidly increasing without any solicitation on the part of the management.

All wise advertisers take into consideration the character of a paper's subscription list as well as the number of subscribers.

PROGRESSIVE

INITIATIVE, REFERENDUM AND RECALL TO BE PUT IN GLENDALE'S CHARTER

The initiative, referendum and the recall will be provided for in the proposed charter now being drafted for Glendale, according to statements made by the members of the board of freeholders.

"These measures are progressive and have been supported by the people; they will be a part of the proposed city charter," said Bert Woodard, chairman of the board of freeholders.

According to statements of several of the freeholders, the initiative, referendum and the recall will be operated as under the state law governing them.

The freeholders will meet at the city hall tonight at 7:30 o'clock for a further discussion of the proposed charter and the public is invited to attend and offer suggestions or listen to the deliberations of the board.

LOCATE HERE

TWO EXPERIENCED BUILDERS FROM SEATTLE ARE NOW IN BUSINESS HERE

C. D. Rodolph and A. J. Merchant, experienced contractors from Seattle, making their specialty the construction of residences, have recently come to Glendale to reside and are making their headquarters at 336 West Wilson avenue.

Both Mr. Rodolph and Mr. Merchant have had much experience in contracting and building. They are prepared to furnish plans for a residence of any size. With the great amount of building now being done in Glendale, they will, no doubt, receive their share of the work. They will be glad to interview those preparing to build.

ISSUE PERMIT

HENRY M. HUNT WILL BUILD FOUR ROOM RESIDENCE AT 606 W. CALIFORNIA

A permit has been issued to Henry M. Hunt for the erection of a four-room residence at 606 West California avenue.

The approach of the holidays and the rainy season have caused building activities to slow up somewhat, but with over $3,000,000 in building in Glendale in the past eleven months and the first few days of this month, the city has earned the right to go easier during the holiday season.

PAIR OF SHOES AND WATCH PROMPTED MURDER; WOMAN AND THREE MEN JAILED

(Special Service to Glendale Evening News)

LOS ANGELES, Dec. 7.—A pair of new shoes, $40 and a watch prompted the murder of Clemente Salas, 38, whose body was found yesterday near the Broadway tunnel, authorities declared today after they had arrested a woman and three men in connection with the slaying.

The prisoners are Mrs. S. Allmuda, who lives in an adobe house about one hundred feet from where the body was found, R. Contreras, E. Alcala and Andrew Cabral.

Salas was stabbed to death in the home of Mrs. Allmuda. Alcala and Cabral, according to a statement made by Contreras, attacked Salas and killed him when he resisted. After he was dead a pair of new shoes were removed from his feet and his money and watch were taken.

TRAIN ROBBERS ARE SENTENCED TO PRISON

(Special Service to Glendale Evening News)

DES MOINES, Ia., Dec. 7.—Fred Poffbarger and Orville Phillips, members of the gang of eleven which robbed a Burlington mail car at Council Bluffs of mail and bonds valued at five million dollars, pleaded guilty here today and were sentenced by Federal Judge Wade to the federal prison at Leavenworth, Kansas. Poffbarger, who, federal authorities say, was the "master mind" of the gang, was given a sentence of eighteen years and Phillips thirteen years.

BLANKET INCREASE IN WAGES IS DENIED

(Special Service to Glendale Evening News)

CHICAGO, Dec. 7.—Request for a blanket increase in wages of from $1 to $2 a day by employees of packing companies were denied today by Federal Judge Alschuler, arbitor in the dispute between packers and employees over wages.

Judge Alschuler, however, granted some temporary increases to certain classes of workers which will amount to about $5,000,000 additional wages which packers will have to pay this year. Alschuler granted all employees coming under the classification of "general plant workers" a temporary increase of five per cent up to $25, retroactive to July 5, 1920, and ending December 5. This awarding will merely amount to a bonus to about 125,000 workers.

REFUSES TO PERMIT SENATE TO TAKE ACTION

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 7.—Senator Lodge today refused to let the senate consider the resolution directing the secretary of the treasury to revive the war finance corporation at once as a means of helping farmers find markets for their products.

CLASS GUESTS

MRS. C. M. CRIST IS HOSTESS TO MEMBERS; DECORATIONS FORETELL CHRISTMAS

The J. O. C. class of the First Methodist church were the guests last evening of their teacher, Mrs. C. M. Crist, at the parsonage.

Christmas bells, garlands in the holiday colors, holly and mistletoe and Christmas candles gave a holiday suggestion to the joyous affair, which was attended by 60 of the young ladies and young married ladies who are members of this large class, now numbering 102.

The hostess was assisted in entertaining by Mesdames Will Peart, Thomas Meigher, Nicoles, McNutt and Tyler, members of the class, and also by her guest, Mrs. C. M. Thomas, of Los Angeles.

The business session was presided over by the class president, Mrs. Tyler. The principal diversion of the evening was a most interesting game, "A Good Mixer."

The ladies of the class brought in many beautiful articles for the baby booth which the class will have in charge at the church bazaar on Friday and Saturday.

Of the 102 ladies comprising this enthusiastic class, 24 are new members who have joined since October.

PARTY HOSTESS

MISS HOPE IRELAND GIVES VERY CHARMING AFFAIR TO NUMBER OF FRIENDS

Miss Hope Ireland was hostess last evening to a large party of friends, at her home, 214 East Chestnut street.

Elaborate decorations in the Christmas motif gave the home a festive appearance, great quantities of holly carrying out the pretty holiday color scheme.

Piano music and the newest phonograph records were features of the entertainment and progressive rook was the game chosen for the principal diversion of the evening. At the close of the game refreshments were served.

Guests of the pleasant affair included Misses Inez Harrison, Marion Clark, Marjorie Yarrick, Helen Engle, Elinor Foster, Edith Schuyler, Lois Schuyler, Margaret Frazee, Millicent Alvord, Beulah Warren, Myra Johns, Edith Price, Gertrude DuBois, Hazel Wilson, and Messrs. Lloyd Culver, Edgar Butlin, Stephen Fairchild, Claire Staley, Earl Hammond, George Stanley, James Sherwood, Wilbur Johns, Joe Gannon, H. D. Walsh, Tom McNary, Alvin Brown, Charles Hanson, Stanley Walker, Bob Howlett, Charles DuBois, and Carroll Andrews.

PURSE STOLEN

MRS. FRANK FELLOWS REPORTS LOSS OF $30 WHILE ABOARD CAR TO LOS ANGELES

Mrs. Frank Fellows of 234 North Howard street had her pocket picked of a purse containing $30 shortly after she boarded a Pacific Electric car bound for Los Angeles yesterday. At least she is of the opinion that a pickpocket was responsible for her loss, for she visited a local store just before boarding the car, made a purchase and left the store carrying her purse. She had it when she boarded the car, she is sure, but when she came to pay her fare the purse was gone.

GLENDALE WINS

LOCAL BASEBALL TEAM HAS BIG END OF SCORE AT CONTEST ON SUNDAY

What will perhaps be news to some people of this city is the fact that Glendale has a baseball team. H. E. Crane, of Crane's grocery, 1414 South San Fernando road, is manager, and the members of the team are all professional ball players. The Glendale players defeated the Vermont-Manchester team last Sunday by a score of 5 to 3. Goss, of Los Angeles, pitched for Glendale. The next game is scheduled for next Sunday at Exposition park and will be against the Llewellyn Iron Works.

URGE W. E. EVANS FOR CANDIDATE

GLENDALE REPUBLICANS MEET AND PASS RESOLUTIONS ON CONGRESS SITUATION

ASK HIM TO ACCEPT

COMMITTEE IS NAMED TO GET HIS CONSENT TO USE NAME AT PASADENA MEETING

Republicans of Glendale met at the residence of J. H. Braly, 905 North Brand boulevard, last night, for the purpose of considering a candidate for congressman in the ninth district to fill the vacancy caused by the death of Congressman-elect Charles F. Van de Water.

The situation was thoroughly discussed with the result that resolutions urging that W. E. Evans, city attorney of Glendale, consent to the submission of his name before the Republican conference, to be held at Pasadena, were adopted unanimously. The Pasadena conference will be held on December 17, at 10 o'clock, at the Y. M. C. A. auditorium, and will be made up of delegates representing every section of the ninth district.

Charles H. Toll was chosen chairman of last night's meeting and Charles L. Chandler was elected secretary. A general discussion of the congressional situation was held by the twenty-five or more Republicans in attendance and it was generally agreed that Mr. Evans would make an admirable candidate.

Resolutions Are Passed

As a result of the discussion, resolutions were prepared and unanimously passed urging Mr. Evans to permit his name to be presented to the Pasadena conference. Many Glendale Republicans are urging Mr. Evans to go before the conference, but so far he has made no statement as to his intentions.

The resolutions passed last night follow:

We, Republicans of Glendale, being called together after the close of the national election of 1920, through the necessity for the holding of the election of a successor to Hon. Charles F. Van de Water, whose tragic death on the very threshold of his national activities has deprived the Ninth Congressional District and the State of California of a high-minded, conscientious and efficient representative and citizen, take occasion to render to those in our community most active in the campaign of 1920, and particularly to W. E. Evans, president of the Republican club of Glendale and member for this assembly district of the Congressional Campaign committee of the Ninth Congressional District, our heartiest appreciation of the work done by them during the campaign which resulted in the election of the entire Republican ticket and the establishment of a new administration of the affairs of the nation.

We interpret the result of the national election to be more than anything else an emphatic expression by the voters upon the proposition that the administration of the national government shall be entrusted to the care and responsibility of officials identified with the Repub-

(Continued on Page 3)

BUILDS HOME

W. E. PELLEY, ALTHOUGH NOT CARPENTER, DOES ALL OF WORK UPON RESIDENCE

W. E. Pelley has sold his residence at 800 Raleigh to Miss Sarah Thomas and will move next into the one he is building at 810 Raleigh. Mr. Pelley, though he is a candy maker by trade and never made the slightest pretensions to being a carpenter, has done every bit of the work on this new house except the plastering. He excavated for the cellar and walled it with concrete, did his own wiring and plumbing and all the fine inside finish work.

The garage in the rear of this place is occupied by E. J. Parratt, wife and son Sydney, who are now residents of Glendale for the third time. The Pelleys and Parratts expect to build on the Smalley place in Sycamore canyon, which they have bought, next summer. Mr. Pelley will build a house on the lot just west of the home recently sold as soon as he finishes the one he is now working on.

PRESIDENT WILSON ASKS CONGRESS TO ENACT LEGISLATION PROGRAM BY WHICH AMERICA MAY TAKE LEAD

Chief Executive Does Not Mention Peace Treaty Nor League of Nations in Message, but Submits Plan to Carry Out His Aims

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 7.—President Wilson today called on congress to enact a program of legislation which he said would put the United States in the forefront of a movement to make the spiritual power of democracy prevail throughout the world.

In his final regular message to congress, which was sent to the two houses by messenger, the president said that there are two ways in which the United States can lead in establishing the doctrine of "right makes might" in the world. These ways, he said, are:

"First, by offering the example within her own borders of the will and power of democracy to make and enforce laws which are unquestionably just and which are equal in their administration.

"Second, by standing for right and justice as toward individual nations."

The president declared that "the display of an immediate disposition on the part of congress to remedy any injustices or evils that may have shown themselves in our own national life will afford the most effectual offset to the forces of chaos and tyranny which are playing so disastrous a part in the fortunes of free people in more than one part of the world."

Wilson did not mention the peace treaty nor the League of Nations in his message, but submitted the following program to carry out the aims he outlined:

1. Immediate passage of the budget bill;
2. Strictest economy in government appropriations;
3. Immediate revision of tax laws;
4. Adequate provision for disabled soldiers and sailors;
5. A government loan to Armenia;
6. Granting of independence to the Philippines.

In addition, the president repeated recommendations he made in previous messages urging encouragement for the manufacturers of dye stuffs and related chemicals; laws controlling cold storage and requiring federal licenses for all corporations engaged in interstate commerce as a means of reducing the cost of living.

DAY FOR BOYS

"FIGHTING BOB" SCHULER ONE OF ATTRACTIONS TO YOUTHS AT SUNDAY MEETING

"Boys' Day" last Sunday was an event successful and profitable in Glendale.

Under the efficient leadership of Secretary Kelley, of Glendale Y. M. C. A., the program at the largely attended afternoon meeting at the First Methodist church was carried out as per schedule.

An organ prelude by Don C. Lindley, a finished musician, opened the program. This was followed by the singing of "America" and a prayer by Dr. C. M. Crist, pastor of the First Methodist church.

Selections by the M. E. Sunday school orchestra and community singing were much-enjoyed features.

Rev. R. P. Shuler—"Fighting Bob" Shuler—told the boys how he received his nickname and explained to them in a breezy, but earnest, vigorous way how to avoid the temptations of boyhood and young manhood that bring destruction and regrets to them in their prime. Mr. Shuler said we had stock shows, poultry shows, dog shows and even cat shows, in order to study these creatures and improve them. It is even more important to study the needs of boys, that each generation may mark some improvement of the race. He explained the evils of the cigarette habit, the advantages and the satisfaction to be gained by clean living and the self-respect that springs from integrity.

Mr. Shuler was introduced by W. B. Kirk, who said that in his ministerial work in Texas the reverend gentleman had spoken to more men in the state of Texas than any other preacher. Mr. Shuler is now pastor of Trinity M. E. church, south, of Los Angeles.

RE-ELECT SUPERVISOR DODGE

The Los Angeles county board of supervisors yesterday re-elected Supervisor Dodge of this district as chairman of the board, as predicted in The Evening News of last night.

INSURANCE AGENTS MEET

The insurance agents of Glendale meet today at the office of Calvin Whiting. Election of officers and other important matters are to come up at this time.

FOR BIRTHDAY

COMBINED AGES OF THOSE AT CELEBRATION ARE 1033; AND AVERAGE 75 1-4 YEARS

Sumptuous was the feast Mrs. Charles Bock prepared for the celebration of her husband's birthday yesterday, when Mr. Bock celebrated the passing of his ninety-first milestone on the journey of life, at his home in Eagle Rock.

Guests of the festive occasion were G. A. R. friends of the host. Their combined ages totaled 1053 years and their average age was 75¼ years. The young fellows in the seventies were in the majority, but none of them was spryer or gayer than the nonogenarian "birthday-child," or his octogenarian friend, H. S. West.

The banquet was served at three o'clock in the afternoon, for G. A. R. men are, of course, too sensible to indulge in late dinners. The 6 o'clock dinner is a new-fangled notion that may have had something to do with making us a nation of dyspeptics; and if we wish to enjoy ourselves at ninety with the zest of these G. A. R. men, we'd better "cut it out," they advise us, through their press correspondent, W. G. Collins.

Mrs. Bock's preparations for the dinner left nothing to be desired. Around the festive board sat the fourteen old friends, Messrs. W. G. Collins, Geo. F. LeCiere, C. H. Clark, J. A. Thayer, G. W. Sanford, A. W. Scudder, R. W. Thompson, R. N. Taylor, J. A. Goodwin, Thomas G. Hull, A. M. Hall, H. S. West, S. Breckenridge, and the host, Charles Bock.

Every guest at the table responded to a toast proposed by the host, Victrola music added a note of gaiety and altogether the party was a complete success.

Mrs. Bock was assisted in serving the repast by her daughters and a grand-daughter.

WEATHER FORECAST

LOS ANGELES, Dec. 7.—The official weather forecast issued today is: Probably rain tonight and Wednesday. Warmer tonight.

RECORD FOR RAINFALL

The record for the present "storm" was .17 inches, as taken by the instruments at the residence of H. E. Bartlett. This makes a total of 2.12 inches for the season to date as compared to 3.75 inches for this time last year.

ANNOUNCEMENTS

ADVERTISEMENTS

NOTICE

Chapter L, P. E. O. will have an all day meeting Wednesday, December 10, 1920, commencing at 10:30, at the home of Mrs. Cora Ramsey, 137 So. Adams St.

NOTICE OF SALE OF INTEREST

Notice is hereby given that I have sold my interest in the Glendale Auto Painting Co., 321 West Los Feliz road, to T. Sherman and Morris Feldman who assume all indebtedness of the old firm.

7815 D. W. SPOONER.

NOTICE OF PUBLIC WORK

Public notice is hereby given that the Board of Trustees of the City of Glendale, on the 26th day of November, 1920, did at its meeting on said day, adopt a resolution of intention No. 1144 to order the following improvement to be made, to-wit:

Section 1. That all of that certain ten (10) foot alley in Tract No. 3196, as per map recorded in Book 33, Page 38 of Maps, Records of Los Angeles County, California, be closed up, vacated and abandoned for street and alley purposes.

Section 2. That the land necessary and convenient to be taken for the improvement described in Section 1 hereof is situated in the City of Glendale, County of Los Angeles, State of California, and is more particularly described as follows, to-wit:

Beginning at the most southerly corner of Lot 4, Tract No. 3196, as per map recorded in Book 33, Page 38, of Maps, Records of Los Angeles County, California; thence northwesterly along the southwesterly lines of Lots 4, 3, 2, and 1 of said Tract 3196 to the most westerly corner of said Lot 1; thence in a direct line across said alley to the most northerly corner of Lot 6 of said Tract 3196; thence along the northeasterly lines of Lots 6 and 5 of said Tract 3196, to the most easterly corner of said Lot 5; thence in a direct line across aforementioned alley to point of beginning.

Section 3. The district to be assessed for the expenses of said improvement is described in, and reference is hereby made to said Resolution of Intention No. 1144 for further particulars of said work.

T. W. WATSON.
City Manager and ex-Officio Street Superintendent of the City of Glendale. 78-t10

We have several clients who desire loans. Good safe investment. Phone Glendale 51. Bentley-Schoeneman Lumber Company.

OCTOBER RECORD OIL MONTH

WASHINGTON—October was a record month for petroleum production in the United States, the geological survey reported.

A total of 39,338,000 barrels of oil were brought to the surface, an increase of 6½ million barrels over October, 1919, production.

There was a slight decrease in oil imports from Mexico and other countries in the month, but a decrease in general consumption as well, so that oil stocks in the country were placed at a figure one-half million barrels larger November 1 than October 1.

Texas production for the month was 9,269,000 barrels, a notable increase over previous records, bringing that state to third place. California, with 9,459,000 barrels was first and Oklahoma with 9,345,000 barrels second.

Birmingham, Alabama, is to have a new hydro-electric plant costing over $10,000,000 and will furnish 120,000 horsepower.

Ceylon's pearl fisheries are believed to be the world's oldest industry, as they have been carried on for more than thirty centuries.

Johnstown and Gloversville, N. Y., are said to supply more than one-half of the gloves and mittens worn in the United States.

PERSONALS

Chapter A. H., P. E. O., are holding their regular meeting this afternoon at the home of Mrs. John Hobbs, 920 South Central avenue.

Mrs. C. M. Crist, of 315 North Jackson street, has as her house guest a Los Angeles friend, Mrs. C. M. Thomas.

Mr. and Mrs. F. H. Mellus of 355 West Lexington drive were the Sunday guests of Mr. and Mrs. L. B. Mellus of Los Angeles at the San Gabriel Country club.

Elsa Hunt and Dwight Beggerman were the winners of the prize fox trot at Sunny's dance, Park avenue and Brand boulevard, last Saturday evening. The prize was $5 in silver.

Henry Hochhausen, wife and daughter Lorraine, who came out here recently from Mallard, Iowa, are now living at 610 East Lomita, in the property purchased of Miss Margaret Korrell.

Levi W. Dickerson and wife, who were in Glendale last winter and returned to their old home in Terre Haute, Ind., have come back to Glendale to stay, having bought L. A. Hart's place at 729 Raleigh.

Mrs. Roy Smith, who has been ill at the home of her parents, Mr. and Mrs. W. N. Bott, 667 Patterson avenue, for several week and was taken to the Methodist hospital in Los Angeles last Sunday, is improving.

Mr. and Mrs. A. D. McCoy, of 1127 East Wilson avenue, have as their house guests Mrs. Detta Reed and Miss Marie McCoy of Peoria county, Illinois. They expect to spend the winter in California.

G. H. Bentley and Roger Bentley, of Bentley-Schoeneman Lumber company, motored to Santa Barbara Saturday to attend a meeting of the "Hoo-Hoos," a lumbermen's organization, returning to Glendale Sunday.

The days for school visiting were spent in Long Beach school last week by Mrs. Della Robinson, teacher in the Columbus avenue school. While in Long Beach she was the week-end guest of Mrs. S. F. Easterbrooks.

George Leaton, wife and two children, who tried living in Oakland last summer, have returned to Glendate, greatly preferring it to the northern city. Tlrey are occupying their own home at 504 Raleigh street.

Mr. and Mrs. Will Elliss of Little Rock, California, arrived in Glendale today and will be the guests of Mr. and Mrs. W. N. Bott, 667 Patterson avenue, for the week. Mrs. Elliss is a sister of W. N. Bott and also Clyde Bott of this city.

T. D. Taylor, who was injured when his automobile turned turtle at Broadway and Verdugo road two weeks ago, is very much better and was taken to his home, 426 Piedmont Park, yesterday morning from the Glendale Sanitarium.

Miss Margaret Korrell, who recently sold her home at 610 East Lomita, is living in a garage, just completed, in the rear of the new five-room residence she is having built at 511 South Louise. She also has another residence of the same size at 505, under way. Scott Caldwell has the contract for both of them.

Miss Genevieve Hoskins of 1130 East Chestnut accompanied the body of her mother, who died on Nov. 24, to Chicago, the old home, for interment. The mother, Mrs. Ida Hoskins, had been afflicted with heart trouble for a year or more. Another daughter, Miss Adelaide, was with her when she died and remained in Glendale to look after the home.

A. W. Dickinson, formerly of Glendale but now residing in San Francisco, where he represents Marshall Field & Co., passed through Los Angeles yesterday, en route to Chicago for the semi-annual convention of his firm. He is accompanied by his son, Marshall, and reports Mrs. Dickinson and daughter enjoying good health.

E. Garner of Milwaukee, formerly a resident of Glendale, was a visitor at the home of Mr. and Mrs. J. E. Peters, 209 North Orange street, last week. Mr. Garner is staying with relatives and friends in Los Angeles, and will start for the east in a few weeks. He is anxiously looking forward to the time when he can come back to Glendale to live.

COUNTY TAX PAYMENTS

It is announced that almost a million dollars—the largest amount ever taken into the tax office in the history of Los Angeles county—was received by Tax Collector W. O. Welch, according to tabulations last night by H. D. Alfonso, his chief deputy. The amount taken in yesteray, at the windows alone, was $993,369.36. It was the last day to pay taxes. Payments from now on are delinquent, and require a 5 per cent penalty.

Up to last night the total received at the windows was $12,169,391.87, the largest sum ever taken in uring the taxpaying period. A year ago at this time receipts had been $7,607,575.45.

Brazil has a mine from which gold and silver have been taken almost continuously since 1725, arsenic being obtained from the residuous sand in recent years.

INSTALL VAULT

STEEL STRONGHOLD PLACED IN PUBLIC WORKS DEPARTMENT FOR BETTER SAFETY

More complete protection for municipal records of the city of Glendale is now afforded by the installation of a large new steel vault at the city hall.

The vault has been placed in the public works department to afford more complete protection for the assessment books and the records of the public works department. The installation of the vault was ordered because of the danger to the records from fire. Also, the vault will prevent the records from becoming misplaced.

BRAIN TESTS FOR CHEATERS

BERKELEY — Psychiatric tests, plain brain tests, have been advocated for those caught cheating in examination at the University of California. Dr. R. T. Legge has asked to have maintained at the college infirmary of which he is in charge, a special psychiatric board to investigate the mentality of the students who violate the rules of the state college. Dr. Legge hopes to maintain the mental labaratory with the sanction of the president of the university. He will be assisted in his work by Chief of Police August Vellmer of this city, nationally known for his work in criminal psychology, and Professor J. T. Burks.

PARTY GUESTS

MISS JOSEPHINE LAUGHLIN IS HOSTESS TO NUMBER OF FRIENDS FRIDAY

Miss Josephine Laughlin, of 601 North Maryland avenue, was hostess to a number of her friends in the southern branch of the University of California, the jolly party arriving on Friday evening and returning to school together on Monday morning.

The guest of honor was Miss Eloise Berger, niece of the celebrated cartoonist, George McManus. The hostess had no set program of entertainment and she needed none; being young and full of the joy of life, when "everything is a source of fun and life's a joke that's just begun," her guests enjoyed their visit to the full, finding interest and entertainment in everything about them.

GIVES ADDRESS

ALBERT D. PEARCE IS SPEAKER AT MEMORIAL CEREMONIES OF ANAHEIM ELKS

Albert D. Pearce, formerly exalted ruler of Glendale lodge of Elks, delivered the address at the Anaheim lodge of Elks' memorial services on Sunday night. The Anaheim services were held in the high school auditorium and a large crowd was present to witness the impressive ceremony and hear the very excellent talk given by Mr. Pearce.

SELLS DAIRY

A. B. CLEMENT DISPOSES OF BUSINESS; INVITATION TO VISIT ORANGE GROVE

A. B. Clement has sold his dairy to Luttge Bros., of Burbank, he announces to The Evening News today. Mr. Clement is making his home at his fine orange grove, 1321 North Pacific avenue. He states that he has an extra fine and large crop of oranges on his trees and he invites eastern people visiting Glendale to call on him and inspect the grove.

"I am always willing to show visitors around," said Mr. Clement, "and to explain to them my way of running an orchard."

WATCH ON GAS

DIRECT SUPERVISION TO BE MADE OVER SUPPLY MAINS IN THIS TERRITORY

To insure an equitable service of natural gas to the various communities in southern California, the state railroad commission has decided to supervise the distribution of gas during the winter months. The commission, according to an order just issued, deems this action necessary in view of a shortage due to excessive demands resulting from the unprecedented growth of the many communities, both industrially and otherwise, depending upon natural gas for heat and fuel. The commission has sent a gas expert to the southern part of the state who will superintend the allocation of the gas supply received from the oil fields to the various companies distributing the gas to the city of Los Angeles and other communities. In its opinion accompanying the order, which was written by Commissioner E. O. Edgerton, the commission says:

"The evidence indicates that with the advent of the winter period a serious gas shortage is occurring and that adequate and proper service is not being rendered to all domestic and commercial consumers throughout the district. An unprecedented growth of these communities has occurred which has resulted in marked increase in demand for gas by domestic and commercial consumers and is now taxing the facilities of the several companies to the limit.

Make Direct Supervision

"Due to the difficulties and complications encountered in the distribution and allocation of the available natural gas supply, between the several distributing companies, it appears that the public need can best be served and the most satisfactory service rendered by the placing in direct supervision and control of the gas supply a representative of the commission to act under certain definitely established rules. The situation demands close daily, if not hourly, supervision."

Referring to industrial consumers, particularly those whose processes necessitate gas fuel, the commission says that "it may not be possible to always guarantee these consumers uninterrupted service during periods of critical gas shortage, and at such times they will be required to curtail their usage in favor of general, domestic and commercial consumers." The commission declares that domestic service must not be jeopardized.

Raise Commercial Rate

Gas rates for commercial purposes in Los Angeles were increased by an order issued by the state railroad commission, effective at once. Domestic rates remain as they are pending further investigation. While the name of the administrator has not yet been officially announced, it is believed that H. L. Masser, gas expert for the railroad commission, will be appointed.

The rates of concerns using gas for commercial purposes are increased by the order from 30 cents to 40 cents per 1000 cubic feet in some cases and in others to 50 cents per 1000.

The ruling says that "general users of gas for commercial purposes will be charged a minimum of $10 a month per meter, and in addition, 50 cents per 1000 cubic feet. Certain concerns, which include glass factories, metal works and institutions using gas in the preparation of foods classed as 'special industries,' will be charged a minimum of $15 a meter per month and 40 cents per 1000 cubic feet for all gas actually consumed."

A serious gas shortage, which, if not carefully supervised, might, before the winter ends, cause an inadequate supply for domestic purposes and possibly cause individual hardship or suffering, exists in and close to Los Angeles, according to the commission's decision, and for that reason it was deemed advisable to take charge of the entire situation.

Headquarters Chosen

The southern California gas administrator will have his headquarters in the office of the railroad commission, on the second floor of the Union League building, and personally will supervise the distribution of gas made by the Los Angeles Gas and Electric corporation and the Southern Counties' Gas company. He will then proceed on the basis that gas for domestic purposes must be furnished first, even if all commercial subscribers are cut off. After home needs have been amply cared for, commercial users in the "special class" will be protected, and after them the "general consumers."

All contracts signed by the companies with commercial users must first be approved by the gas administrator, and will be subject to curtailment without notice upon order of the railroad commission's representative.

Fur buyers are authority for the statement that the supply of muskrat skins is decreasing at the rate of 50 per cent annually.

RESOLUTIONS

GLENDALE REPUBLICANS MEET AND URGE W. E. EVANS TO BE CONGRESS NOMINEE

(Continued from Page 1)

lican party only.

We heartily concur in the action of the Republicans of this Congressional District in attempting to agree upon the Republican candidate best fitted to succeed Mr. Van de Water and pledge ourselves to abide by the result of the proposed conference of Republicans for this purpose at Pasadena.

Having among our citizenship and as one of our leaders a man whom we deem eminently qualified as a loyal and efficient citizen and Republican to occupy the position of member of congress from this district in the person of W. E. Evans of Glendale, we feel that a vigorous effort should be made to induce Mr. Evans to consent to submit his name as a candidate before the Pasadena conference and if Mr. Evans so submits himself as a candidate we pledge him our steadfast and unanimous support and bespeak for his candidacy the careful and deliberate consideration of the conference.

A committee composed of Charles H. Toll, Judge F. H. Lowe, John Robert White and Charles L. Chandler was appointed at last night's meeting to wait on Mr. Evans and present him with a copy of the resolutions.

CLAIM SPEEDING

PACIFIC ELECTRIC CARS TO BE WATCHED; VIOLATION OF LAW SUSPECTED

Claiming that, in some instances, the Pacific Electric cars are violating a city ordinance by running too fast along Brand boulevard, the board of city trustees has instructed John P. Lampert, chief of police, to take the matter up with the railway company and see to it that the speed law is kept.

According to Trustee Stephenson, the Burbank flyer is one of the cars guilty of running faster than provided for by the ordinance. While the railway company has the right to make its own speed, it is said, on its right-of-way, the city controls the speed of the cars at crossings.

SECURITY FIRST

SAFE-GUARDING PRINCIPAL IS FIRST REQUISITE OF ONE MAKING INVESTMENTS

The investment field, at the present time, embraces such a large variety of securities that intelligent knowledge on the part of the investor can only be gained by making special and intensive studies of each of the different classes of investments.

To the investor the security of principal is, or should be, the prime requisite of an ideal investment. Safety is the cornerstone of success in every security transaction, and in the final analysis, safety of an investment depends upon the amount of property in good condition owned by the company, the total capitalization, the earnings, and the priority of the issue in question.

Closely akin to the security of principal is the stability of income. The investor desires to obtain his income with regularity and with certainty, and hence his selection of investments varies widely from that made by speculators. Investment aims mainly at safety of capital and income, while speculation aims at large profits by the increase in value of the security. However, speculation and investment may be said to emanate from the same motive, namely, the desire for gain; and the difference between them is the difference in degree of risk willing to be assumed; thus the gradual dividing line between common stocks, preferred stocks and bonds.

The common stock of any concern depends almost entirely upon the earning power of the company, and it has a very direct interest in the growing profits and in the expansion in the value of the equities. Hence it is apt to be more directly affected by declines in profits and shrinkage in equity values; and conversely it will respond more readily to large earnings and to prospective increases in dividends. As a rule, a common stock is not a pure investment; especially is this so when the company is new or when there are numerous other issues ahead of it. However, some of the public utilities of excellent standing, which have long dividend records and satisfactory earning capacity, may be regarded as stable, and their common stocks may be placed in the investment class.

In Investment Field

Well-seasoned preferred stocks are in the same class as standard and tested bond issues. The high-grade issues possess relatively small attractiveness from the speculative point of view, and are confined almost entirely to the investment field. While a preferred stock is not a mortgage, and is in many ways essentially different from most bond issues, its investment position will often be affected by the same factors which affect the worth of a bond. Like a bond, in most instances the income is fixed and the dividend rate cannot be increased above the limit which the terms of the issue provide. Hence, like bonds, the value of money and not the earning power of the company largely determines the selling price of the preferred stock.

A bond is evidence of a loan of money, and the bondholder receives a "promise to pay" a fixed sum at a certain specified date; and for the loan of this money he receives interest paid at regular intervals until maturity. Thus, when a person loans funds to a corporation and receives security therefor, the primary fact in which he should be interested is not necessarily that large profits will be made, but that the value and character of the property which is pledged as security for the loan is of the highest grade and of sufficient value amply to cover the loan.

In considering the public utility corporations, due consideration must be given to the class of security desired, i. e., whether common stocks, preferred stocks, or bonds, and each individual company must be thoroughly examined. A great many investors persist in confining their commitments to bond issues, merely because they have a vague nation that a bond must be a sounder investment than a stock; notwithstanding the fact that a bond, of itself, is not necessarily any better than a stock but must depend upon the security behind the issue. Numerous preferred and common stock issues are far superior in strength and value to many bond issues, and the mere fact that a bond is a mortgage and that the holder thereof is legally entitled to a fixed return on the mortgage will not of itself put him in a position of better security than that occupied by an investor who holds common or preferred stocks of some other corporation whose earnings and equities are very materially larger, even though the latter have only a junior claim on income.

To have a successful business there must be an ever increasing demand for the company's products. At the present time there is no demand so large nor so insistent as for the service furnished by some of the public service companies. These corporations furnish types of service which are absolutely necessary to the growth and comfort of the community, and the industrial prominence of many localities has been due, in a large measure, to the successful operation of the public utilities therein. There is nothing so conducive to good business as well regulated and successful utilities.

It is becoming more clearly recognized that unnecessary and destructive competition ought not to be permitted. To this end government regulation of public utilities has been established, and the earnings which would have been eaten up in competition can now be used to develop and extend the service. This change of attitude in regulatory bodies has not come about all at once and this view is not as yet universally held; but the tendency toward providing better conditions for our public utilities is being evidenced throughout the length and breadth of the land.

Added Responsibility

The elimination of competition while allowing these companies more uniform earnings and working conditions, however, carries with it an added responsibility, namely, that of expanding to meet the demands of the growing community. It is due to the fact that the demands of this type of corporation increase more rapidly than their surplus earnings, that new funds must be constantly obtained from the investor's standpoint. A uniformity of earnings is obtained which is hard for many industrial companies to duplicate. Due to the diversity of demand, depressions which seriously affect general business hardly ever make large reductions in the earnings of the successful utility concerns, and, as a rule, any slowing up in business only gives the company time to overhaul its equipment and improve its efficiency, besides allowing time to make alterations and add new facilities.

Improved operating conditions existing or in prospect should be reflected in security values, and it is the opinion of some of the leading authorities on public utilities that this field offers unusual opportunities to purchase the securities of many corporations which have successfully weathered the difficulties arising during the war period. Those companies which have suffered most from the effect of the war should gradually readjust their affairs on a sounder basis than ever before, and it seems inevitable that sooner or later wisely selected investments in this field will respond to a wider appreciation of the improved conditions under which many utilities are operating.

Satisfactory earnings can be maintained, as is evidenced in many instances, and it is only logical to assume that history will repeat itself, and, with the return of more normal conditions, the funds now attracted to other fields will return to the field of sound, conservative public utilities. Such conditions have always come after a speculative period, when the true worth of conservative investment securities has been again recognized and the temporary or speculative investment loses its attraction.

As stated before, care must always be shown in the selection of investment securities, whether common stocks, preferred stocks, or bonds, and the like. Expert advice on each particular issue should always be obtained, but when due consideration is given to the essential character of the service furnished by our utilities and the ever increasing and diversified demands for their output, together with the fact that the hazards of competition are largely eliminated, the public utility field offers very attractive opportunities to the investing public.

NEW EVIDENCE

JAPANESE SUBTERFUGE SHOWN IN COLONIZATION METHODS DECLARES OFFICIAL

SAN FRANCISCO.—While California's Japanese issue rapidly assumes national proportions, brought about by the passage of the alien land law amendment restricting Japanese property and land holdings, new evidence of Japanese subterfuge in colonization methods is being gathered by the Japanese Exclusion League of California for use in the forthcoming campaign for absolute exclusion of Japanese from the United States.

Information secured by John S. Chambers, chairman of the league, exposes trickery to which the Japanese are alleged to be resorting in order to throw "smoke screens" over their land investments and to conceal the true statistics relating to Japanese births in California.

Chambers has notified the organization headquarters here of a report by one of the appraisers in Los Angeles that Japanese are adopting such common English names as "John Smith" as identity camouflage, so that when land companies are incorporated the nationality of the investors will not appear in the transactions.

Hide Births in State

In relation to the birth rate, Chambers has informed the league officials of wholesale attempts by Japanese to secure extra birth certificate blanks in order to conceal the true figures showing the birth rate among their countrymen.

The method used in the scheme, according to Chambers, is for Japanese parents applying for birth certificates to return to board of health headquarters later, stating that they made a mistake in the names on the certificate secured and needed a new blank.

On the heels of this new evidence, the Japanese Exclusion league has been furnished data from the California district headquarters of the American Legion, showing extensive Japanese immigration into Texas and steps being taken by the Texas Legion for exclusion legislation.

Texas Begins Probe

After going on record as opposing Japanese, Chinese, and oriental immigration, the Texas organization of war veterans appointed a committee of three to investigate the proposed colonization of orientals and asked the Texas legislature to pass laws preventing Japanese and other orientals from owning land or settling in the state. The Legion also will join California in asking congress for Japanese exclusion.

New evidence of the activity of Japanese in San Francisco to corner as much property as possible before the new land law becomes operative is offered meanwhile by Louis H. Mooser, president of the San Francisco real estate board, which recently waged war against a Japanese plot to corner local apartment house property, and will shortly hold another session on the Japanese property activity.

Buying Property Galore

Mooser states that during the past few days Japanese numbering sometimes as high as twenty or twenty-five have crowded the offices of the title insurance companies, showing extraordinary life in real estate transactions in which Japanese are interested and substantiating Mooser's statement that San Francisco Japanese are "buying property galore."

While the Japanese Exclusion league and the organizations supporting its campaign for a new drive aiming at absolute exclusion, the pro-Japaneses forces are also lining up for resistance to the effectiveness of the alien land law amendment and future anti-Japanese moves.

VEST POCKET "NIPS" IN PARIS

PARIS—It is so distressing, don't you know, to be caught in some situation where you badly need a good muscular piece-me-up and the nearest drinking cafe is five minutes away.

Paris hates visible distress. Paris, therefore, settled the problem by providing for sale small bottles of every popular brand of liquor and wine on the market. These are purchasable at any wine shop. They are about the size of a small ink bottle. However, into each small bottle a kick is stuffed that "Maud" never had in her maidenly prime.

The bottles are made for gentlemen's vest pockets. But they must be French vests. They would deform an American in his skin-tight gear.

The weight of a tractor developed for use in Africa and its load are supported on metal rails, but it is propelled with rubber-tired wheels running beside its track.

The Interstate Commerce Commission denied the application for the Southern Pacific railroad for a government loan of more than $5,000,000 to purchase new equipment.

MEDICINE WON'T BE "BOOZE"

CHICAGO—Plans which it was announced "would drive from the market the manufacturers of medicines and toilet articles of such high alcoholic percentage that they are used as beverages," were completed by the Proprietary Association, composed of more than two hundred manufacturers of proprietary medicines.

The manufacturers agreed to gather evidence of violations of the law by medicine manufacturers and pledged "their full resources to aid the government in driving out of business the firms which are selling beverages as medicine."

The action was taken after the government had asked that something be done to curtail what was termed "the enormous withdrawals of alcohol from warehouses."

"American agricultural machinery is important in Norway," states Nels A. Bengtson, of the Bureau of Foreign and Domestic Commerce. "In general the high quality of American tools and mechanisms is conceded and the expression is frequently heard that American goods rank first in quality but are somewhat higher in price."

Plant diseases, which might have been prevented, cost the farmers of the United States tremendous losses in 1919. The following figures of losses are official: wheat, 112,000,000 bushels; oats, 50,000,000 bushels; sweet potatoes, 40,000,000 bushels; tomatoes, 185,000 tons; cotton, 850,000 bales; peaches, 5,000,000 bushels; apples, 16,000,000 bushels.

Due to improper ventilation in the mines, at least 1000 metal miners die annually in the United States, causing a loss of time aggregating millions of dollars and untold suffering to the miners and their families.

BEST FRIEND

MAN'S JOB CLOTHES AND ALSO FEEDS HIS WIFE; IT PAYS RENT AND PLEASURE

A reader of The Evening News noticed the attached article in a publication and brought it to this office as being worthy of reproduction. It is entitled "A Man's Job" and is as follows:

A man's job is his best friend. It clothes and feeds his wife and children, pays the rent, takes him and his family to the theatre, gives them all a few weeks' vacation, supplies them with the wherewithal to develop and become cultivated, and holds a gun at Old Man Want. The least a man can do in return is to love his job. A man's job is grateful. It is like a little garden that thrives on love. The more intelligently he cares for it, the more he does to improve it, the more it is on his mind, engages his affections and his best thought, and gives him pleasure, the stronger the probability that it will one day flower into fruit worth while, for him and his to enjoy. Every normal man wants to be successful. And if you ask any successful man the reason for his making good he will tell you that first and foremost it is because he likes his work; indeed, he loves it. His whole heart and soul are wrapped up in it. His whole physical and mental energies are focused on it. He walks his work, talks his work, eats his work, sleeps his work; he is entirely inseparable from his work, and that is the way every man worth his salt ought to be if he wants to make of his work what it should be, and make of himself what he wants to be.

SEEKS RELIEF

PACIFIC ELECTRIC COMPANY DESIRES TO BE RELIEVED FROM OBLIGATIONS

City officials of Glendale are interested in the announcement made today that the Pacific Electric railway will ask the state legislature at its next session, which will open in January, to relieve it from the obligation of paving streets; to grant it an indeterminate franchise, to place "a fair and reasonable tax on automobile carriers, to amend the jitney driver license law, and to place truck carriers and automobile carriers under the jurisdiction of the state railroad commission.

Announcement to this effect was made by H. B. Titcomb, vice-president of the Pacific Electric railway, who added that other electric roads of the state will join in the request.

The city officials are interested in the declaration that the railway will ask to be relieved from the obligation of paving and, it is presumed, the matter will be considered by the city manager and the board of trustees.

BEEF SUPPLY

ENGLAND MUST DEPEND UPON SOUTH AFRICA FOR BIG PART OF ITS MEAT

LONDON—An interim report on the meat situation, prepared by the government subcommittee on trusts and issued as a white paper, says that for a long time Great Britain must be dependent on South America for a great part of her beef supply. North American meat companies have nearly 60 per cent of the beef output of Argentina and Uruguay and 75 per cent capacity of the meat works built or building in Brazil.

No complaint is made in the report of unfair trading on the part of the American companies beyond severe cutting of prices for the purpose of developing trade or clearing surplus stocks.

The policy of the North American companies is the same today as since their entry into the River Platte trade, says the report, namely, the continued reduction of the trade held by British companies. This policy, it is added, involves risk of grave dangers to the British consumer.

Recommendation Is Made

The committee recommends that the Las Palmas meat works in Argentina shall continue to be operated in behalf of the British government, so as to afford a means for watching developments in cost and price movements.

"There is no evidence of the existence of either temporary or permanent combinations in the homegrown meat trade or in imported meat from the dominions," continued the report. "But there is at least a tacit understanding between the American meat companies which gives them all the economic advantages of an active combination."

These companies, the report declares, are pursuing a policy of driving out the British companies and the committee recommends that the government take steps to prevent the percentage of trade in foreign lands increasing.

EXPORTS REPORT

INCREASED CONSUMPTION AS SHOWN BY FIGURES GIVEN BY BUREAU OF COMMERCE

Total exports of manufactured goods ready for consumption increased $55,097,018 over the month of September, according to the December analysis of foreign trade of the United States, as announced by the department of commerce.

During October, crude materials imported for use in manufacturing amounted to $86,039,985, while in the previous month, $102,354,898 was imported. Importation of crude foodstuffs amounted to $56,254,186 in October and $38,140,000 in September. Manufactured foodstuffs imported reached $59,163,224 in October and during September $82,885,506 was imported. Goods for use in manufacturing in October amounted to $62,233,158, while in September they amounted to $63,589,667. Manufactured goods ready for American consumption amounted to $68,341,061 in October and during September $73,755,960 worth of these goods was imported.

Exportations Crude Goods

Crude materials exported in October amounted to $173,852,036, while in September the country exported $119,176,866 worth of crude materials. Crude foodstuffs exported during October amounted to $118,679,259, as against $108,176,866 exported in September. The report says that manufactured foodstuffs exported in October amounted to $77,440,808, while the previous month $58,742,967 worth was exported. Manufactured goods for use in further manufacturing reached $75,718,735 in October and $68,075,112 in September.

Manufactured goods ready for consumption abroad reached $295,517,378 in October as against $240,520,946 in September. Miscellaneous exports amounted to $842,448 in October and $482,946 in September. Foreign goods exported in October totaled $9,677,906 in October, while the previous month the same exports amounted to $10,218,655. Total exports for October amounted to $751,728,570, while September exports reached $605,291,257.

Maine has 5151 rivers and streams and 1620 lakes, according to a recent survey.

TAX ON LIQUOR

ANNUAL REPORT IS MADE O.. COLLECTION TAKEN BY REVENUE BUREAU

Collection of $5,407,580,251 in taxes and efforts to control the liquor traffic under the prohibition act formed the principal work of the internal revenue bureau during the last fiscal year, Commissioner Williams said in his annual report made public recently.

The tax collection was the greatest in the history of the nation, he added, while in prohibition enforcement the bureau was faced with the creation of an organization which embraced all states of Hawaii, Porto Rico and Alaska.

Total income and profit taxes made up the bulk of the revenue obtained by the government with $3,956,936,003, but the report shows that an additional $291,809,355 came from tobacco taxes. The levy on distilled and fermented liquors produced $139,401,149 and miscellaneous and war excise taxes brought in $833,863,871. The remainder of the revenue was from capital stock, stamp and special taxation.

Aliens Contribute Big Sum

Mr. Williams noted the collection of $13,117,778 from aliens who were departing for their native lands after a temporary residence in the United States. Many of these, he said, were not inclined to comply with the revenue regulations which require the satisfaction of all tax liabilities before passports are issued.

Total expenditures of the bureau was $29,647,439, including $2,059,774 for enforcement of prohibition; $460,827 to enforce the Harrison narcotic law, and $89,703 for enforcement of the child labor law. This made the actual cost of collecting the record tax bill $27,037,134, or 50 cents per $100 for the fiscal year of 1919.

Williams shows that 55,863,745 gallons of distilled liquors were held in bonded warehouses June 30, a reduction of 16,494,405 gallons during the year. The report shows also that 99,615,792 taxable gallons of distilled liquor were produced during the twelve months and withdrawals from bonded warehouses were reported at 28,220,909 gallons. The highest mark shown for production and withdrawals was in 1916, when production reached 249,123,921 gallons and withdrawals were 160,740,210 gallons.

Largest Amount in Storage

The largest amount of liquor ever held in storage was in 1914, with a total of 282,056,460 gallons.

Mr. Williams said the government had employed the permit system as one of its chief methods of controlling the liquor traffic at its sources. He added that 62,759 of the various classes of permits were issued between January 16, when constitutional prohibition became effective, and the end of the fiscal year. They were for the use of alcoholic liquors for other than beverage purposes and included 11,501 permits to prescribe. The bureau revoked 294 permits of various kinds between the dates mentioned and 359 applications for permits were not allowed.

The census of the seal herd on Pribilof Islands this year shows as a total, 1,500,000 seals, the largest number known since the government took charge of the seal industry.

GAMBLING HITS A TREASURY

MANILA—Next to cockfighting, the favorite sport or diversion of the Filipino is gambling, and gambling also dominates the cockpit. Matters are so bad that the government has been forced to take drastic steps in order to protect the public funds, and already has suffered losses which probably will be difficult to make up through the bondsmen. A recent executive order issued by the acting chief, A de las Alas, forbids municipal treasurers from retaining in the municipal safes funds in excess of their bonds, as they are to be held strictly accountable. Nor will any accountable government officer be allowed to indulge in any form of gambling under penalty of dismissal.

Gambling will be held to include not only such games as monte and jueteng, but also cockfighting and the games of poker, panguingue, burro and the like.

All of which is going to put a great crimp into the national pastime, and there is some hope that it will improve the national treasury, which is at a very low ebb.

There were fewer tourists in Cuba last winter than during any period in the recent history of that island, according to the Cuban commissioner of immigration.

CLEAN MONEY

FIVE HUNDRED DOLLARS IN DIRTY GREENBACKS TO BE WASHED IN PUBLIC

Most of us are perfectly willing to have all the "filthy lucre" we can get, so long as it isn't "tainted money." Comes now Mrs. Bessie Lee, factory demonstrator for the Crystal Electric Washer, with a plan to reorder obsolete the expression "filthy lucre."

Tomorrow afternoon, at 2:30, she will wash about $500 worth of dirty paper money in the Crystal washer, right in plain sight of every one, in the show window of the Jewel Electric company, 202 East Broadway. Of course, it isn't simply that Mrs. Lee is imbued with the philanthropic idea of leaving five hundred dollars' worth of clean money in Glendale; in fact, she confesses quite boldly that her object in washing the money is to demonstrate one salient feature of the Crystal washer.

The washing of paper money, be it known, is as delicate a piece of work as the washing of silk lace; and the point Mrs. Lee demonstrates is that the Crystal washer absolutely will not tear the bills; and if it won't tear paper money, it won't tear one's finest and daintiest fabrics—you may trust your embroideries, your georgettes and your precious table linens to its cleansing ministrations without a shadow of worry as to the outcome.

The Crystal's claim to marked superiority as a washing machine is based on the Crystal One-Way cylinder, from which all oscillating and reversing mechanism has been eliminated. Since the Crystal runs in one direction only, there is no stopping and reversing a cylinder heavy with water and soggy with clothes. This, Mrs. Lee will explain to you, not only does away with continual strains and jars, but also permits the smooth and easy motion which assures a long-lived machine.

The new model Crystal has 27 working parts. Its predecessor had 137. The reduction of moving parts makes for simplicity. This, in turn, does away with vexing oil holes and eliminates ratchets which, no matter how carefully made, become noisy with use.

Respond to Lightest Touch

The levers respond to the lightest touch; one controls the cylinder, the other the wringer. The automatic safety release protects you from accidents and also protects your motor. The cost of operating the Crystal is guaranteed not to exceed two cents an hour.

All moving parts are enclosed, so there's no danger of catching skirts or venturesome baby fingers. A lifetime supply of oil, hard and non-oozing, is packed around the gears. It cannot drip and it cannot soil your clothes. The swinging electric wringer helps to get the wash out quickly. A touch of the lever, and the rolls move, swiftly and smoothly wringing out the clothes.

Every Crystal washer and wringer carries with it a guarantee signed by an officer of the Crystal Division Mallory Industries, of Detroit, Michigan. It is written evidence of the makers' determination that every Crystal washer shall give satisfaction. Even more conclusive proof of the Crystal's worth is the fact that Mrs. Lee herself sold 2000 of these machines in nine months and never had one come back.

Even most moderate pocketbooks can encompass the purchase of a Crystal, for it is sold on convenient monthly payments. The Jewel Electric company, 202 East Broadway, are the Glendale representatives handling this machine.

HUNGER HORROR

AUSTRIAN CAPITAL IS SCENE OF GREAT SUFFERING SAYS PAPER CORRESPONDENT

Writing from Vienna, Austria, to the Chicago Tribune, George Seldes gives the following account of the unseen hunger horror in the life of the Austrian capital:

From the looks of the cafes and cabarets of Vienna these days one would think prosperity and joy had returned to the capital of Austria. Champagne bottles are popping like kettle drums, confetti and colored streamers make mardi gras every night, laymen dance with the abandon, to see which one pays high prices in an American theatre, women make up for the lowness and highness of their dresses by robing themselves with strings of pearls and diamonds. Men pay bills in four figures.

That is a common picture American visitors find. They see also the thousands at the races in the fall, the betting of millions of crowns, the crowds in the theatres, the silk stockings on the Ring, the de luxe stores of Kaerntnerstrasse, the arrogant display of wealth by the war profiteers.

Vienna's Worst Winter

But out in Ottakrink and the neighboring wards they are preparing for the worst winter in the history of Vienna. "Preparing" is hardly the right word. There is nothing to prepare, except perhaps a little wood, a few crusts of bread and their minds. They still go to the Wienerwald and cut sixty pounds of wood for their week's allowance and some of them still frequent the municipal garbage dumps and eat bits of decayed meat and the green mouldy scum at the bottoms of cans of American condensed milk. I have seen as many as a hundred women and children there at one time.

The war profiteers, the rich refugees from other countries, the members of foreign missions, the food smugglers, the jewel merchants and foreign visitors generally live in luxury and gay music, but the masses of Vienna are no better off than they were last winter. Every American in position to know, members of the American mission and of other American activities and members of European missions who have investigated and sent official reports to their governments agree that starving Vienna is certainly no better off than last winter. Some believe Vienna is worse off.

Poor Will Freeze

The last shipload of American flour, 200,000 tons, the gift of the grain corporation, is in the port of Trieste unloading. Austria has bread to last until Jan. 1, 1921. I asked a member of the cabinet what Austria would do then. He shrugged his shoulders for answer.

Col. W. Causey, who has charge of the coal shipments in Central Europe, told me he has been able to obtain a little more coal for Austria, but it must go into the industries. That means the poor will freeze as they did last year.

The number of unemployed is greater if anything. Those who abuse Austria for not settling down to work are ignorant of the industrial and economic situation. There is little chance of employment, little chance of getting more coal to run the industries, little chance of getting raw materials from outside for these industries, little chance of getting new machinery, little chance of getting new credits, little chance of importing the 75 per cent of the nation's foodstuffs which must come from outside, little chance of anything but death or union with another nation. That is Austria in a nutshell.

REPORTS ARMENIA IN CHAOS

WASHINGTON—Most recent dispatches to the state department indicate that Armenia is in a condition of chaos, although a bolshevist regime is reported to claim the sovereign power. The Russian government has demanded that the Turkish nationalists halt their advance in Armenia, offering war as an alternative.

The request from the League of Nations for American mediation between the Kemalists and Armenia has been received by President Wilson, who has it under consideration.

Diplomats here said only the moral efficacy of this country's advice might be expected to have weight with the Turkish nationalists, in the absence of force.

NEGRO'S PLEAS WON A MOB

SEYMOUR, Ind.—Several armed and masked men stormed the county jail here and, after overpowering the guards, took Harry Bentley, 30, a negro. Bentley was bound hand and foot, thrown into a car and driven to the edge of the city, where his captors cut his bonds and prepared to hang him.

A rope was thrown over a tree limb and a noose placed around Bentley's neck. Several men tugged at the rope and as Bentley was drawn from the ground into the air he broke into a plea for mercy.

He was let down to the ground and taken up the road further, where he was released after promising to return to jail.

FINE PROGRAM

THORNYCROFT BOYS PLEASED WITH SATURDAY AFTERNOON AT MRS. WOODS' HOME

Saturday will go down as a "red letter day" for Thornycroft boys, because of the fine musical and dramatic treat given them on the evening of that day by Mrs. Nanno Woods and her gifted daughters, Misses Dorothy and Kathleen.

The program included a group of dance numbers by these young artistes, the Misses Woods, in costume: a gypsy dance by Miss Dorothy Woods and Irish dance by Miss Kathleen Woods, and a Russian dance in which both young ladies took part. The Russian dance, especially, with its rich costumes, unusually artistic poses, and the vivacity with which the young ladies executed the different figures, completely captivated the audience.

The recitation, "My Doll," given by little Miss Marjorie Muff, was a monologue written for her by her teacher, Mrs. Woods. It was dainty and pleasing and effectively interpreted by the little lady.

Lyman Bosserman caused much merriment by his clever interpretation of "Bobby's Christmas Presents." It was the young man's first appearance in public; he did himself proud and reflected great credit on the training of his teacher, Mrs. Woods.

Miss Dorothy Woods' piano solo, "Christmas Chimes," was listened to with such attention that one might have heard a pin drop.

The musical recitations which Mrs. Woods contributed to the evening's entertainment were very enjoyable features. Mrs. Woods rich voice was heard to advantage in "The Whistling Boy" and "The Tale of the Stocking," two humorous selections with which she chose to cheer the soldier boys.

The social hour following the program was much enjoyed as it always is, and the friendships thus formed by the boys are a means of brightening their lives.

U. S. SHIPPING

NEW AMERICAN MARINE UNDER DISCUSSION BY EXPERT IN BRITISH SHIP LINES

Discussing the new American merchant marine in a special number of the Manchester Guardian of England, Winthrop L. Marvin, vice president of the American Steamship Owners' association, says in part:

"The signing of the armistice on November 11, 1918, left on the hands of the American government merchant steamers of a total gross tonnage of almost 12,000,000, substantially more than one-half of the entire merchant shipping of the British empire in 1914, before the U-boats had begun their ravaging.

"Most of these ships are distinctly overseas carriers and there is relatively small room for them in the enormous coastwise and lake trade of the United States, which in 1914 was fully supplied with 6,852,536 tons of shipping, a fleet in itself about 40 per cent greater than the entire merchant marine of Germany.

"The Americans have no choice about it; they absolutely must employ their government-built fleet for purposes of foreign commerce. It will, in a large part, balance the war-destroyed tonnage of Great Britain, France, Italy and Scandinavia.

Formal Declaration Is Made

"The new American merchant marine service act opens with a formal declaration of the determination of the government and people to maintain a great merchant fleet, capable of carrying the bulk of the country's sea-borne commerce and of providing a sufficient reserve of ships, officers and men in war—all these ships 'ultimately to be owned and operated privately by citizens of the United States.'

"To that end the shipping board is instructed to sell the government-owned fleet 'as soon as practicable, consistent with good business methods and the objects and purposes to be attained by this act.' It is particularly emphasized that the ships shall be sold only to American citizens or to corporations American controlled—with the proviso that those vessels which Americans do not need and will not buy may after due investigation of the facts be disposed of to foreigners.

New Lines Are Open

"The shipping board has already established, and through private companies, is operating cargo service to the chief ports of the world. New lines of postal steamers already run from New York to both the east coast and the west coast of South America. Two Oriental lines are projected across the Pacific ocean. On the north Atlantic the existing American service of the International Mercantile Marine has received many large cargo ships, and has been awarded the huge passenger liner Leviathan, while a second trans-atlantic route to Bremen is provided for the United States Mail Steamship company. About thirty former German liners seized in American ports are being reconditioned for commerce, and twenty or more new steamships designated as transports but being completed for commercial liner service will be ready for sea very soon."

A Kentucky man "got mad" at a judge when sentenced to jail, and became a candidate for the judgeship. He defeated the judge, although still in jail, and the county is wondering what he will do if the judge ever is unfortunate enough to be brought before him.

There are fifty-four kinds of paper money in the United States.

The Bureau of Markets announces that it has just completed the task of running down a story that eighty carloads of potatoes were dumped into the Delaware river and that the yarn has absolutely no foundation. Stories of food dumping, the bureau states, are usually without foundation.

Investigation by government agents has shown that it does not pay the farmer to tan his own leather. The results are uncertain and the hides are seldom of a high enough quality to command top prices.

A thrilling race was held recently in the Seine between "hydrogliseurs," made of airplane equipment abandoned by the Americans. These craft are driven by air propellers.
